"SV" Air Flex Doctor Holder (SVAF - A1)

We offers a Specially, unique Air Flex Doctor Holders designed by our production team with special and improved features in a very low cost for various applications. It provides even blade pressure across the roll surface which benefits easy changes of Doctor blade without any damage of surface of roller.

Available at required face length and in imported S.S. 304 material.

"SV" K-35A (SVK - A3)

It is specially designed by our technical team for easy removal of Doctor Blades under running condition of the roller. Our K-35A holders provides a uniform and mirror cleaning effect on the roll surface. Suitable for all applications.

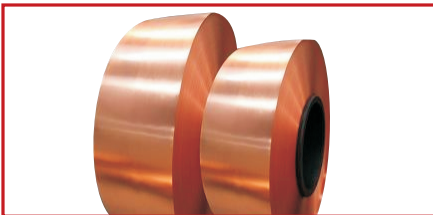

Available in Both S.S.304 and En-8 material

"SV" OSCILLATION SYSTEM (SVA - A4)

We are providing accessories for oscillation system for doctor Holder with suitable Gear Box with Motor, Pneumatic Air Cylinders, Housing Brackets, Journals, Eccentric Cam, Hook, Linear Motion Bearing, Operating Panel fitted with pressure Gauge

"SV" DOCTOR BLADES

A. Phosphorous Bronze-SV-GR3 SV-PB3

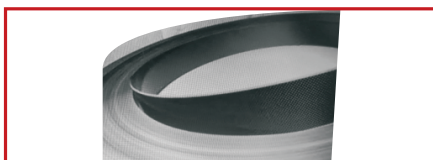

We are offering Hardened and Tempered Phosphorous Bronze Doctor Blades suitable for MG Dryers with Grade 3 material with true metallurgical composition.

Dimensions - 0.8mm, 1.2, 1.5, 1.8mm thickness • 75, 100 - Width
Available in single piece of continuous length (With Rivits or Clips)

B. Glass Epoxy Fibre Doctor Blade - SV-GEP - B1

Offering Imported Glass Epoxy fibre doctor Blade
Dimension - 1.5 to 2.8mm thickness • 75mm Width
Its a combination Glass Epoxy and Resin Fibre
Maximum Temperature 185° (With Rivits or Clips)

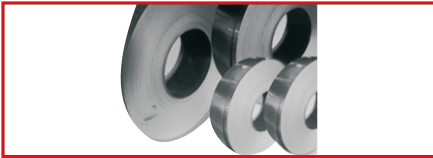

C. Carbon Fibre Doctor Blade SVCF - B2

Carbon Fibre are available in 2C and 4C
Thickness Available - 1.5, 1.9mm • Width - 75mm
Its a Combination of CARBON FIBRE FABRIC WITH EPOXY-RESIN
(TEMPERATURE RESISTANT)

D. HTSS DOCTOR BLADE - SVSS - B3

HTSS BLADES ARE AVAILBLE
DIMENSION - THICKNESS - 1.2MM • WIDTH - 75MM (With Rivits or Clips)

E. CARBON STEEL DOCTOR BLADE (SVCS - B5)

AVAILABLE IN 1.2, 1.5MM THICK • Width As Per Requirements
IT IS Highly durable, Corrosion resistance with Optimum finish

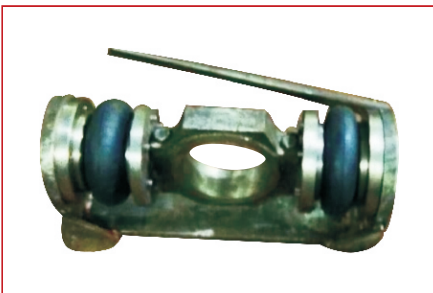

F. POLYPICK DOCTOR BLADE

Available in UHMWE in all sizes of length and thickness.
Supplying in 3 grades Virgin, Plus, G9

AUTOGUIDE

BELLOW TYPE AUTOGUIDE (SVPA - B7)

We are manufacturing Bellow Autoguide for Felt and Wire systems which is designed to keep the wire running properly in the center of the roll over which it travels. Guide Roll is fitted in housing bearing.

We provide Autoguide with Sensor Palm Assembly with S.S. 304 Palm Assembly fitted with Ceramic Strips with M.S. Zinc Coated stand. Also providing Imported Firestone Bellows Autoguide will be designed as per suitable Housing Bearing No.

Available in Both S.S. and M.S

Cylinder Type Autoguide (SVCA - B9)

We are also engaged in manufacturing Cylinder Type Autoguide to control the movement of felt wire. It is also provided with Ceramic Palm with Top Plate for bearing housing mounting.

Available in S.S. 304 and M.

Pulper Valves (SVPV B-2)

A. We are offering Knife Gate Valves from Size - 2" to 20" both in S.s. M.S. in Single Body

VALVE M.O.C. :

For C.I. :- Body C.I. With S.S. Ring.

For S.S. :- Complete Body in S.S. Spindle Nut : G.M. (Gun Metal)

Bracket & Hand Wheel : C.I

B. We are also offering Knife Gate Valves in Double Body Knife Gate Valves which can be repaired without changing the valve.

Available in 2' to 20'

VALVE M.O.C. :

For C.I. :- Body C.I. With S.S. Ring.

For S.S. :- Complete Body in S.S. Spindle Nut : G.M. (Gun Metal)

Bracket & Hand Wheel : C.I

NOZZLES

Threaded Shower Jet Nozzles Needle jet nozzles, High impact straight jet nozzles, Short flat jets..all the industry standards are available in the high quality you require.

Available in SS304, SS316, insert ruby, ceramic, tungsten carbide & brass

Ruby Jet Nozzles

- Disc-type nozzles fit inside the shower; the internal brushes easily sweep fibre particles
- Lock ring holds the nozzles in place
- Available in flat and solid stream spray patterns
- Solid stream versions: Choose from stainless steel ceramic, or synthetic ruby orifice material for longer wear life

Available in SS304, SS316, insert ruby, ceramic, tungsten carbide & brass.

Nozzles For Shower Headers

Our unique disc-type nozzles, Flat Spray, Dome Type Jet / Flat Spray Nozzles Flat fine nozzles for internal brush showers are manufactured in house offering longer life plus increased efficiency. Available in SS304, SS316, insert ruby, ceramic, tungsten carbide & brass.

PNEUMATIC CYLINDER

HYDRAULIC CYLINDER

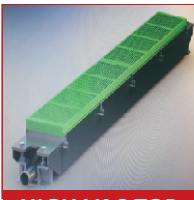

Pneumatic Cylinder - Offering Pneumatic Cylinder in all sizes

CARDAN SHAFT AND UJ CROSS BEARINGS

We are offering Cardan Shafts with High Class Bearings with long service life, High Torque Capacity with U.J. Cross with Bearings.

POLYMER ITEMS

HIGH VAC TOP

PRESS VACCUM BOX

SUCTION BOX

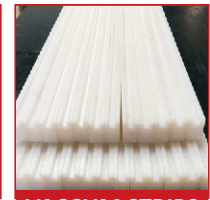

BAGGLI BOX TOP

LOW VACCUM FOILS

VACCUM BOX TOP G9 GRADE

VACCUM STRIPS

We are offering Polymer Items to our Industry High Vaccum Top, Press Vaccum Box, Suction Box, Baggily Box Top, Lo Vaccum Foils Vaccum Strips.

MOC : Material used is TICONA GUR Germany 4130 Grade 6.8 Mill Mol Weight.

We are offering in three grades Virgin, Plus, G9HD
